

## Hanging file

This file lets you store your letter post tidily yet accessibly, without making lots of holes in the wall. It's not even necessary to take the file off the chain when you need something inside it.

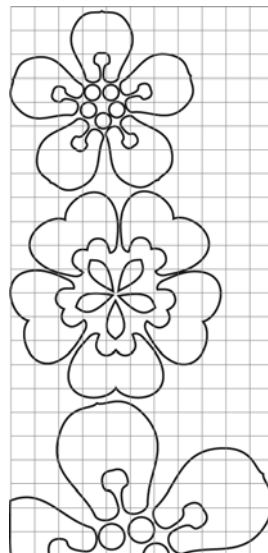

### Size for DIN A4 paper

Pattern: 1 Square = 2.5 x 2.5 cm

### Materials

- Yellow, brown, green, orange and check linen fabric
- 3 commercially available hanging files
- Bondaweb (double-sided adhesive web)
- Embroidery thread and tear-away embroidery stabiliser
- BERNINA 330, 350, 380
- Appliqué foot no. 20 or clear foot no. 39

### Cutting out

Measure the opened hanging file carefully. Finished width 1 cm more than the file, length plus 7 cm hem on each side. For our standard A4-format file, cut out 67 x 36 cm, including seam.

### Instructions

1. Mark bottom-edge fold. Cut out all flower sections as per the pattern pieces and appliqué.
2. Hem the sides with a narrow hem, so that the final size is 1 cm wider than the file. Neaten short sides. Iron Bondaweb onto back of fabric. Iron fabric onto the file. Iron hems inwards.
